The Democrat says that regular raids are being made on the chicken roosts of Carrollton and that it is beginning to look as though the stealing was done by an organized band. A load of pepper and salt is recommended to be followed by a charge of buckshot.

A Kansas newspaper man's motto: "Lie, steal, drink and swear." When you lie, let it be down to pleasant dreams; when you steal, let it be away from immoral associates; when you drink, let it be pure water; when you swear, let it be that you will patronize your home paper, pay your subscription, and not send your job work away from home.

Tokens of regard were tendered Mrs. Anna Quisenberry by the teachers and students of the Carrollton high school with which she has been connected for many years. She abandons her chosen and lifelong profession to wed Prof. Oren Root of New York, who in former times, taught in the state university, and at Glasgow, Salisbury and Carrollton.

Am glad to recommend it to all in need and seeking relief from colds and coughs and bronchial affections. It is non-narcotic and safe in the hands of the most unprofessional. The Salisbury Democrat informs its readers that it is getting up a reputation for writing up old people, and has this to say of Mrs. Mary Givens of Keytesville in its last week's issue: She was born in Mercer county, Kentucky, December 1, 1811, making her 90 years old last Sunday. She moved to this country when only 23 years old and has resided here continuously for 67 years. She has been over from Keytesville visiting her brother, Wm. Stevenson of Hedgepeth addition, and who is 84 years old. Mrs. Givens makes her home with A. L. Welch, ex-treasurer of this county, and who married her grand-daughter.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. For sale by W. C. Gaston.

That would do in the olden times but now he must both hold and drive. Men everywhere are driving and climbing for dear life (or gold). It is this being everlastingly at it that shortens men's lives. Every nerve is put on the stretch and sooner or later the system begins to give out. The stomach is of the greatest possible importance in sustaining life and vigor, and is liable to be the first to give out. The work performed by the bowels is no less important. The overstrain caused by rush and worry of life soon results in indigestion, dyspepsia, constipation, liver and kidney troubles, headache, nervousness, and every conceivable trouble soon follows unless the right thing is done. The old philosophers searched for the elixir of life but failed to find it. We have found it. Congressman Emerson and Congressman Connell as well as Ex-Treasurer of United States, Wyman, Senator Brackett, Judge Houghton, Mayor Knapp, Attorney General Smith, not only speak in the highest terms of our Company but of our great remedy, Dr. Kay's Renovator, and thousands of the most eminent people who know by experience, endorse Dr. Kay's Renovator, as the greatest known remedy. If you are beginning to give out or if you are down where other remedies have failed to help you, don't wait but go at once to your druggist and get Dr. Kay's Renovator. It strikes to the very root of the trouble, beginning with the stomach, bowels, liver and kidneys and renovates and invigorates the whole system, giving new life, health and vigor to the whole body. It is not only very efficient but perfectly safe for all ages and conditions. Ask for our pamphlet giving reports of the most marvelous cures known to the medical profession, or send to us for a copy. Free advice, sample and book for the asking. Prices 25c, 50c and \$1. Dr. B. We note in the Triplett Tribune that Dr. Gord Brown's spirited driving team ran away Thursday morning and raised havoc in general. They became frightened by the firing of a gun and started up the street at a lively gait. In crossing a culvert the doctor was thrown out and the buggy was upset and demolished. The team escaped injury with the exception of a few slight scratches. Beyond a good shaking up the doctor escaped unhurt.

We learn from the Salisbury Press-Spectator that John S. Griffin of Philadelphia, a son of Sadie Drew, who died in Salisbury, not long since did not arrive until a week after his mother's death, having failed to receive a telegram sent to him from Salisbury at the time of the Drew woman's death, and for this negligence he has brought suit against the Western Union Telegraph Co. for damages. When Griffin arrived at Salisbury last Wednesday he went through the house casually, making no search, but the next day he was informed that the house had been broken open and went down and found it so, and that some one had gone through her property, but there is no way of telling what might have been taken. Griffin was at once appointed administrator and took an invoice Saturday afternoon, finding no money and not much personal property excepting a watch and chain. The house and lot belonged to her and is unincumbered, and goes to Griffin as sole heir. Griffin has at various times sent his mother money, amounting in all to some \$1,500, but so far has not been able to find any trace of it and he is at a loss to know what might have become of the coin.

WHAT'S IN A NAME?

(Benson's Plaster is Pain's Master.) In the days of 'wild cat' money in the West, the Ames shovels were used as currency. They were as stable as gold; their price did not vary a cent in twenty years. The very name of Oliver Ames & Son, was a synonym for honesty. It was current all over the world.

On the same principle Benson's Porous Plaster is the universal standard external remedy. To say it is a "good" plaster does not describe it; it is the best possible plaster. For every disease in which an external remedy is available, Benson's Plaster is used almost as a matter of course. Benson's Plaster quickly relieves and cures where other modes of treatment are either expensively slow or have no good effect whatever. Coughs, colds, lumbago, kidney trouble, rheumatism, lame back, etc., are at once benefited and soon cured. Capsicum, Strengthening and Belladonna plasters have none of the curative virtues of Benson's. More than 5,000 physicians and druggists have commended Benson's Plaster as a remedy in which the public may have implicit confidence; while, in a comparative test with other plasters, Benson's has received fifty-five highest awards. Beware of substitutes and cheap imitations. For sale by all druggists or we will prepay postage on any number ordered in the United States on receipt of 25c. each. Seabury & Johnson, Mfg. Chemists, N. Y.
